

Listing of Claims:

Claim 1 (original) A vehicle steering wheel, comprising
a skeleton,
a gas bag module which is axially movably coupled with
said skeleton in such a way that by pressing against said gas
bag module a contact is closed for actuating a horn, and
a resilient return element for said gas bag module,
said gas bag module including a gas bag with an opening
edge defining an inflation opening as well as including a
flange clamping said opening edge on an inside of said gas bag
for fastening said gas bag,
bearing pins being provided which directly engage said
flange and which are attached to one of said skeleton and a
part stationarily mounted directly to said skeleton.

Claim 2 (original) The vehicle steering wheel as claimed
in claim 1, wherein said bearing pins are attached to said
skeleton in such a way that an axial movement of said gas bag
module together with said bearing pins, for actuating said
horn, is permitted.

Claim 3 (original) The vehicle steering wheel as claimed
in claim 1, wherein on at least one of said bearing pins one
of said contacts to be closed is mounted.

Claim 4 (original) The vehicle steering wheel as claimed
in claim 1, wherein said bearing pins also form a lateral
guidance for said gas bag module.

Claim 5 (original) The vehicle steering wheel as claimed in claim 1, wherein said bearing pins are designed as threaded pins and wherein nuts are provided which nuts engage one of said skeleton and said part, which part is directly and stationarily mounted on said skeleton, and which nuts have an outer surface forming a lateral guidance for said gas bag module, said bearing pins being screwed into said nuts.

Claim 6 (original) The vehicle steering wheel as claimed in claim 5, wherein said outer surface of said nut is cylindrical.

Claim 7 (original) The vehicle steering wheel as claimed in claim 5, wherein a guide sleeve is provided for each of said nuts, said guide sleeve being provided on one of said skeleton and said part directly and stationarily mounted on said skeleton.

Claim 8 (canceled)

Claim 9 (canceled)

Claim 10 (original) The vehicle steering wheel as claimed in claim 5, wherein a gas generator carrier is clamped between said nut and said flange.

ATTORNEY DOCKET NO. TRW (ASG) 6001-1

Claim 11 (original) The vehicle steering wheel as claimed in claim 1, wherein a gas generator carrier made of plastics is provided.

Claim 12 (canceled)
